

ProSiebenSat.1 Accelerator

Description

ProSiebenSat.1 Accelerator is a 3-month program to support start-ups, led by one of the largest media corporations in Europe, ProSiebenSat.1 Media Group. Launched in 2013, the program provides high potential startups with seed funding, mentoring, office space and access to investors and strategic partners as well as to Germany's largest media network.

Please note that our focus is not limited to startups connected to media industry but that we welcome startups from every segment – both B2C and B2B.

We are aiming to speed up the pace of the development of promising young companies

Program ingredients

- ✓ **Coaching:** Our executives at ProSiebenSat.1 Media AG as well as external experts support startups in different areas in which they would like to improve
- ✓ **Mentoring:** We provide individual mentoring to the most important topics that a startup has to deal with, such as strategy, business and product development, marketing but also law, finance, technology and many other
- ✓ **Networking:** We introduce young entrepreneurs to decision-makers and other people relevant to them from our huge network
- ✓ **Co-working:** Participants get office space at ProSiebenSat.1 HQs in Munich/Unterfoehring or in Berlin
- ✓ **Funding:** Every Accelerator start-up receives EUR 25,000 funding in return for 5% equity.
- ✓ **Marketing:** In every round we provide one startup with a wildcard to pitch at the SevenVentures Pitch Day. There, they have the chance to compete for 7 Million EUR in TV advertising.

The ProSiebenSat.1 Accelerator will offer startups in the online entertainment space (Content, Online Video, Music, Entertainment & Games) an even closer connection to its subsidiaries like Ampya, Aeria Games, MyVideo and Studio71 by opening up an additional outpost in Berlin.

Relevant startups will be provided with office space in the heart of Kreuzberg and all the necessary infrastructure, working side by side ProSiebenSat.1's online entertainment subsidiaries.

The office space in Berlin can be seen as an addition to the main location of the program in Munich. As always startups from all business fields are invited to apply for the 3-month program, ranging from e-commerce, advertising, hardware to any b2b focused business models.

Timeline

The program application period will end on July 14, 2014. After narrowing down the applications to about 20 startups, we will invite those companies to pitch for us. Out of those 20 companies we will pick up to 8 companies to participate in the Accelerator program starting in September 2014.

Startups can apply here: <https://www.p7s1accelerator.com/en/application>.
