

iX-tend your business. Make things happen.

home-iX offers student internships and student jobs among others as

Software Developer Internet of Things (Backend)

Job-ID: S-189-004

home-iX is looking for you to join our team. Founded in 2016, we are a growing start-up in and from Stuttgart that speaks IoT and helps companies to let their smart services and devices participate in the digital lifestyle. Are you studying (business-) information technology and want to play an active role in a fast-growing company? Then home-iX is the right place for you!

Your Profile

- Structured and quality-oriented work in an international team
- German/English (spoken and written skills)
- First Experiences with Agile Software Development like e.g. Scrum
- Experience in Microsoft Office products like Word, PowerPoint and Excel
- Skills in one or more of the following programming languages or technologies
 - Java
 - Docker or Kubernetes
 - Mongo or other NoSQL databases
 - JSON, REST, Web Services
 - Git

Tasks

- Feature development of our microservice based cloud platform "conUgate"
- Feature development of our embedded "microGate" IoT device stack
- Participation in Scrum meetings
- Maintenance of Functional & Technical Design Documentations
- Testing Features

Benefits

- Exciting insights into the everyday life of professional software development
- Startup culture in an international team
- Working with big companies in the growing Internet of Things (IoT) market
- Freedom to bring your own device (BYOD)
- Flexible working hours (home-office or on-site)
- Free Netflix or Spotify Premium Account during the period of the engagement

Interested? Send us your CV and a short Letter of Motivation to jobs@home-ix.com or call us under +491737025681 in case of questions.
